

Summer Isles

ALBUM AND CATALOGUE

Following on the appearance of Summer Isles Stamps in the British Local Posts CD Catalogue and the production of a fully illustrated CD Stamp Album for these islands, it was only natural that we should come together and produce a combined Album and Catalogue.

Ralph, who is responsible for the catalogue and marketing side, and Larry who has produced the album, have only ever met each other via email, but even through this media, have found that their aims are virtually identical. The idea is to present a format giving collectors of specific Local Posts, in this instance – Summer Isles, all the material needed on one CD.

As Summer Isles is an on-going Local Post, it will be necessary to produce updates whenever needed and we will make every effort to supply these to previous purchasers, as soon and as cheap as possible.

It is almost inevitable that some small errors have crept into this work, and we hope that purchasers will forgive us for this and make sure that they inform us of alterations / corrections / additions or whatever, so that the next edition will be even better.

The album consists of 71 pages (You only need to print up to page 40, further pages are blanks for your personal use –FDC's etc.). To print, open in XL and ensure that you have sufficient paper in your printer tray, then print. This will produce single sided pages (recommended for stamp albums). Your printer may give you other options such as double sided printing .These instructions will vary for each printer. Use good quality white paper, 90gms or more to give excellent results. REMEMBER view the album in Print Preview before you commence printing.
